CITY DIRECTORY

OF

BLUFFTON, INDIANA,

CONTAINING

The Names, Addresses and Occupations of all Residents Over
Sixteen Years of Age,

TOGETHER WITH

A Complete Business and Professional Directory, Lodge Directory and Other Information of a
Miscellaneous Nature.

COMPILED IN MAY, 1900,

BY

O. T. FRASH,

HARTFORD CITY, INDIANA.

INTRODUCTION.

In the publication of a directory for the city of Bluffton the publisher of this volume has no desire to defend himself against any criticism of same in any of its parts. From a more or less extensive knowledge of the public benefits derived from such a book and the labor and expense incidental to its publication as offset by the support it should have received, I am led to remark that the book is certainly as good as the business men of Bluffton have paid for and as far as merit is concerned it would have been hard even with more liberal patronage to have produced a better one. Of course errors and inaccuracies will be found in this as in any other book of a similar nature but on the whole the addresses and other information herein compiled may be accepted as correct without further question for a period of two years at the expiration of which time some other directory compiler may undertake to publish another volume. The opportunity is hereby taken to sincerely thank those who have contributed to the success of this work by their patronage and to urge upon those who have not a more liberal policy toward the next compiler.

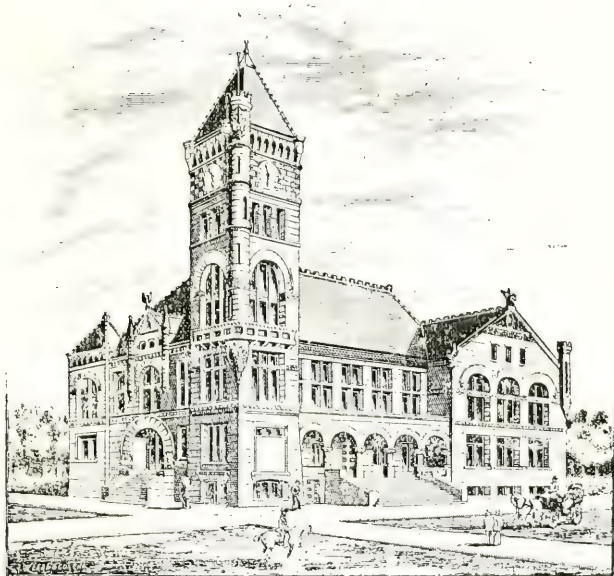

Respectfully,

THE PUBLISHER.

IN APPRECIATIVE ACKNOWLEDGEMENT.

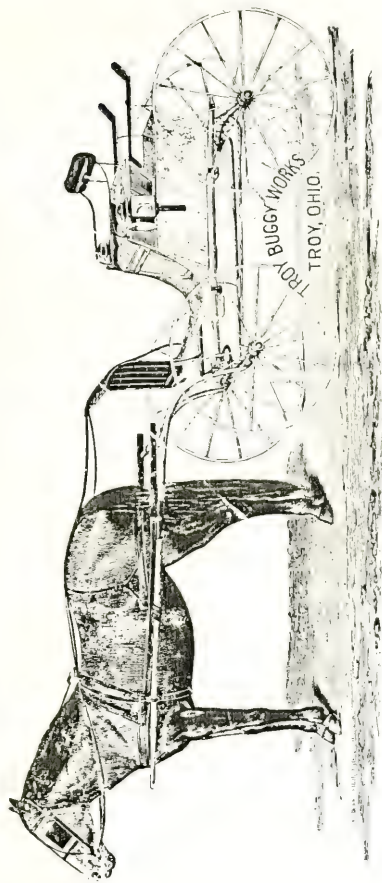

Acknowledgement is hereby made of the valuable assistance rendered in compiling this work by Misses Bessie Houtz, Mate Studabaker, Gusta Michaels and Gracia Myers to whom the credit is due for the accuracy of the information herein. The work of these energetic young ladies has been marked by careful and conscientious effort which has greatly lightened the labors of the publisher.

NINTH YEAR.

Circulation 825.

The News is recognized as the People's Paper in Bluffton. It goes into 650 homes of the city. Its local matter is unprejudiced, fair and reliable. Its advertising rates are low and within the reach of all. Its want column is a money-maker, and will get you anything under the sun.

The News gives all the local news. It works for Bluffton's interests all the time, and helps to move "The Asphalt City" in right channels. Believing that this is the best city on earth, and its citizens built on the same plan, it also has the idea that

The News is a mighty good example of a good daily paper in a good town. Especial attention given to society printing, invitations, programs, calling cards (printed or engraved) or anything for social events. A fine job office in connection with

The News plant where good work is done at fair prices. Don't call if you want cheap work at a cheap price. The output of this department is based upon the principle of a dollar's worth for a dollar. It will be good, upon good material and at a price that will convince you that it is reasonable.

OFFICE

In Basement of Court House,

HARTFORD CITY.

The City of Bluffton.

As a location for schools there is perhaps no better city in all the great Northwest than Bluffton. It is known as "The Asphalt City" because of its magnificent distances of shaded asphalt drives, lined with imposing business blocks and elegant and costly residences. Situated on the edge of the great Indiana gas and oil field, this city receives all the substantial benefits of the immense oil operations carried on in this part of the state, at the same time avoiding the unpleasant features that attend a too close proximity to the field.

The city is easily accessible from all directions and its excellent railroad facilities will be enhanced this summer by the construction of two new inter-urban electric lines. Bluffton is a hospitable city, with many churches of all denominations, a fine library, literary societies and clubs and the student is thus surrounded with all the refining influences that can be desired.

Our School Home.

Our school building, located in the heart of the business portion of the city and but five minutes walk from any of the railroad depots, is one of the largest and most substantial in the city and was but recently remodeled for this institution. The rooms are all large, with high ceilings, and provided with good fresh air and natural light. The rooms are accompanied with a long and spacious hall, ladies' and gentlemen's lavatories and good, healthful drinking water. The school is furnished throughout with new and modern furniture, built especially for the comfort and convenience of students.

Our Instructors.

It is a rule of this institution to employ only competent instructors, those who, together with a complete mastery of theories have had practical experience in their several lines. In no department does the instructor attempt to teach the student to do something he cannot do himself. M. H. Ormsby and F. M. Rhinehart, instructors in the Shorthand Department are the official Court Reporters of the 28th Indiana Judicial Circuit and teach in the school the same system used in their Court work. Miss Bertaline Mason is a graduate in the Shorthand Department of the school, has supple-

mented her theoretical training with commercial and legal work and is a member of The National Shorthand Teacher's Association. N. B. McPherson, principal of the Bookkeeping and Banking Department, has had twenty-five years experience as bookkeeper and expert accountant and in that capacity has served three of the largest concerns of their kind in the world. G. C. Blue, instructor in penmanship, is a graduate under one of the best instructors in the U. S. and has had several years experience as teacher of the art. Prof. W. H. Kelley, A. B. instructor in Grammar, History and Literature, is a graduate of Indiana University and for six years has been principal of the Bluffton High School, while Prof. M. L. Fisher, instructor in Mathematics and Sciences has had a course of two years in Purdue University and for eight years has been a teacher in the public schools of the State, and is now principal of the Central Schools of this city.

The Shorthand Course.

The course is divided into three terms of eight weeks each, though these terms may be made longer or shorter, as the work of the student necessitates. A successful amanuensis now-a-days must be more than a mere writer of shorthand and operator of the typewriter, and it is the aim of the school to equip students for their work in the most thorough manner. With this end in view, students in shorthand are required either to take the auxiliary studies mentioned below

or, before entering pass a thorough examination on those subjects.

Principles of Shorthand and Review.

TYPEWRITING.

Construction and use of Machine.

Court Reporting.

The student who completes the above course will be competent to fill any commercial position, but, if he wishes he may remain in the school and take special training in Court and verbatim reporting. This advanced course is without additional tuition and students who desire to prepare themselves for Court work or other positions requiring a very high rate of speed will find this course to be very beneficial to them. We also give special work to students on any particular line of reporting they expect to take up.

Penmanship.

The work in this department is under the supervision of G. C. Blue and includes Plain Penmanship, or Business

Writing, Analysis, Blackboard Writing, Fancy Combinations, Lettering and Automatic Pen Lettering, especial stress being laid on Plain Writing or Business Penmanship.

Common School Studies.

Spelling, Definition, Punctuation, Composition, Letter Writing, Commercial Law, Commercial Arithmetic, Rapid Calculation, Parliamentary Law and Civil government are auxiliary studies to the Bookkeeping and Shorthand Courses but they may be taken separately. Terms for this department given on application.

Summer Normal Department.

This department is in charge of two of the leading educators in the state of Indiana, Prof. W. H. Kelley A. B. Indiana University, and Prof. M. L. Fisher, assisted by teachers in the Commercial and Shorthand Departments. Any information concerning this department will be gladly furnished on request.

Typewriting Department.

This school has adopted the Van Sant system of Touch Typewriting, a system now in use in all first class schools in

the United States. It enables the operator to write rapidly, with few mistakes and to read copy while the fingers are engaged on the keyboard. Our school is equipped with the latest designs of machines, of standard make and all are practically new.

Time Required.

The time required for the completion of the work in any of the above courses depends principally upon the ability of the student and the attention given to the work. The average time for completing the course in shorthand is six months, though many finish in four months. NOTE:—Two of our students have but recently finished the course in three months, being able to write 100 words per minute, and both secured positions immediately upon finishing the course. The bookkeeping course requires four to six months and a complete course in penmanship may be taken in from five to seven months.

Time to Enter.

Students may enter at any time. School is in session all the year round, Sundays, National holidays and about one week at Christmas-tide excepted.

Good rooms may be had from 50 cents to \$1 per week and meals at the best restaurant and dining hall in the city from \$1.50 to \$2.50 per week. Boarding in clubs may be had at yet lower rates.
